

Upcycling

Upcycling - Sustainability with Character

At Seemühlen Manufaktur, we blend sustainability, design, and artisanal craftsmanship into something truly special. Our passion lies in upcycling—the creative reuse of materials—to craft extraordinary products that carry both history and personality.

From driftwood collected along the shores of Lake Constance to recycled skateboard decks from local producers, each piece tells its own unique story. These one-of-a-kind items bring natural warmth and individuality into your home.

When working with fine and fruitwoods, we also focus on resource-conscious methods. We favor timber with small imperfections or unusual grain patterns—materials that might be rejected elsewhere, but which we believe deserve to shine in their own distinctive way.

Driftwood

Skatewood

Driftwood from Lake Constance

Many of our designs are also available in exclusive versions crafted from authentic driftwood sourced directly from Lake Constance.

We intentionally choose this lake for its pristine waters, which are among the cleanest in Europe and meet the highest drinking water standards. The availability of driftwood varies widely by season, and only around 5% of it meets our strict criteria for quality and workability. Each item made from this precious resource is a true regional original—our seal guarantees both provenance and quality.

Recycled Skateboard Decks

Breathing new life into old skateboards is a complex process—but one we embrace wholeheartedly.

The journey begins by removing the rough grip tape using hot air. Each board is then carefully sanded and cleaned before being cut, re-laminated, and transformed into a new piece. This reclaimed material, known as Skatewood, offers a vibrant mix of colors and layers. From this urban canvas, we craft distinctive items such as:

- Keychains & Bottle Openers
- Ballpoint & Sketch Pens
- Handles & Mini Vases
- Espresso Tamper

Our ever-growing collection of Skatewood products stands for lived sustainability and the spirit of modern street culture—each piece a celebration of reinvention and style.
