BXL-Peppermills
for the catering trade

The classic, rethought - in BXL format

In selected French, Italian or American restaurants, it is still a living tradition: the large pepper mill, stylishly brought to the table - as a sign of genuine hospitality. Our BXL show mills (Beyond XL) take up this experience and set new standards in craftsmanship and design.

Our lighthouse model is crafted from high-quality, textured oak and is available in a range of lacquer finishes and impressive lengths from 60 to 120 cm. Each piece is designed for durability and impact - with a precision Swiss steel grinder for powerful, consistent grinding.

A real highlight - well thought out down to the last detail

Our BXL pepper mills not only impress with their imposing size, but also with their clever functionality:

A specially developed filling funnel is elegantly integrated into the handle - for convenient and clean refilling, without additional accessories.

For professional requirements, we offer the following options:

- **WideGrind** mechanism: from fine to **extra** coarse
- Table tray
- Stand
- Customized laser engraving or logo

A real eye-catcher. A statement of quality. And an experience for your guests.
